Sector

Education

Purpose

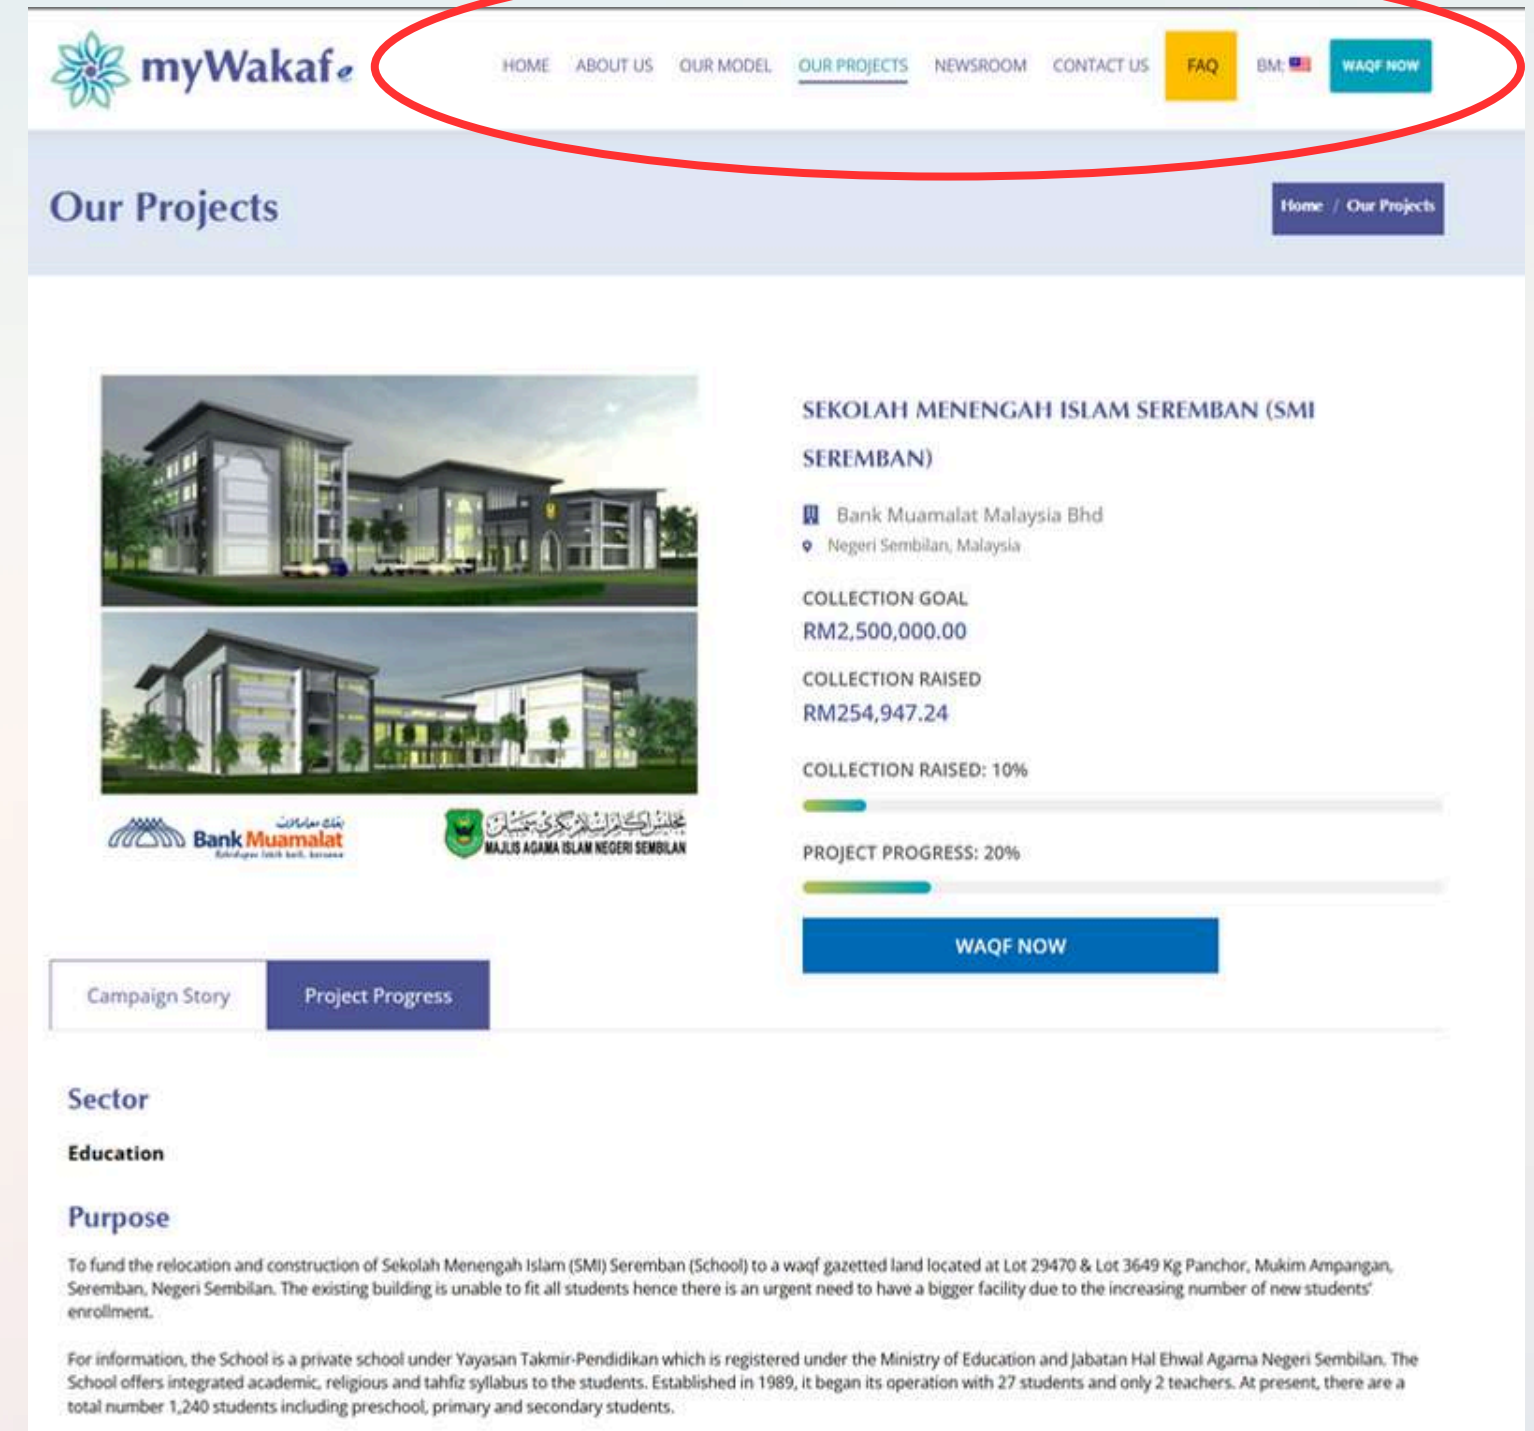

To fund the relocation and construction of Sekolah Menengah Islam (SMI) Seremban (School) to a waqf gazetted land located at Lot 29470 & Lot 3649 Kg Panchor, Mukim Ampangan, Seremban, Negeri Sembilan. The existing building is unable to fit all students hence there is an urgent need to have a bigger facility due to the increasing number of new students' enrollment.

For information, the School is a private school under Yayasan Takmir-Pendidikan which is registered under the Ministry of Education and Jabatan Hal Ehwal Agama Negeri Sembilan. The School offers integrated academic, religious and tahfiz syllabus to the students. Established in 1989, it began its operation with 27 students and only 2 teachers. At present, there are a total number 1,240 students including preschool, primary and secondary students.

NO PERSONALISATION??

The image shows the homepage of the myWakaf website. The header includes the myWakaf logo and a navigation menu with links: HOME, ABOUT US, OUR MODEL, OUR PROJECTS, NEWSROOM, CONTACT US, FAQ, BM, and WAQF NOW. The main content area features a large green floral logo and the text "Langkah-langkah berwakaf melalui portal:" followed by a list of five steps: 1. Layari portal www.mywakaf.com.my, 2. Tekan butang "TUNAIKAN WAKAF", 3. Pilih projek pembangunan myWakaf, 4. Isikan maklumat peribadi, 5. Tekan butang "PROSES BAYARAN WAKAF". Below this, there is a JomPAY logo and a box containing the text: "Biller code: 25072", "Ref-1: Contact number", "Ref-2: Email address". To the right, it says "atau melalui aplikasi:" and shows a QR code. The bottom section is titled "myWakaf Campaigns" and displays three campaign cards: "WAQF OF SOLAR DOME DRYER FOR FISHERMEN AND FARMERS COMMUNITY" (AIBIM myWakaf, Malaysia), "HOUSING WAQF" (Bank Islam Malaysia BHD, Pulau Pinang, Malaysia), and "INAP WAQF" (Bank Muamalat Malaysia Bhd, Kedah, Malaysia). A red oval highlights the "myWakaf Campaigns" section.

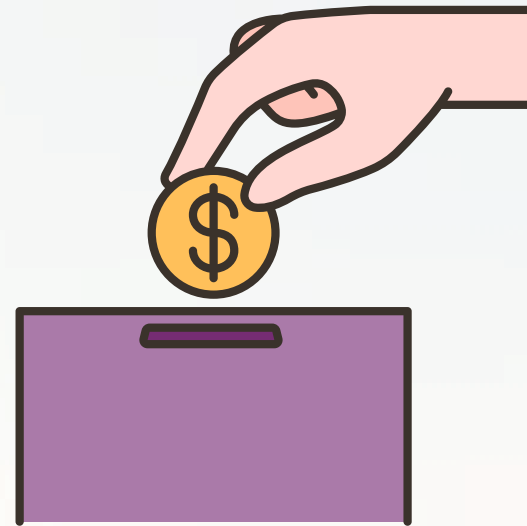

The image shows the "Our Projects" page on the myWakaf website. The header is identical to the homepage, with the navigation menu circled in red. The main content area is titled "Our Projects" and features a project card for "SEKOLAH MENENGAH ISLAM SEREMBAN (SMI SEREMBAN)". The card includes a photo of the school building, the name of the project, the bank (Bank Muamalat Malaysia Bhd), the location (Negeri Sembilan, Malaysia), the collection goal (RM2,500,000.00), the collection raised (RM254,947.24), and progress bars for "COLLECTION RAISED: 10%" and "PROJECT PROGRESS: 20%". A "WAQF NOW" button is at the bottom of the card. Below the card, there are tabs for "Campaign Story" and "Project Progress". The "Project Progress" tab is selected, showing the "Sector" (Education) and "Purpose" (To fund the relocation and construction of Sekolah Menengah Islam (SMI) Seremban (School) to a waqf gazetted land located at Lot 29470 & Lot 3649 Kg Panchor, Mukim Ampangan, Seremban, Negeri Sembilan. The existing building is unable to fit all students hence there is an urgent need to have a bigger facility due to the increasing number of new students' enrollment. For information, the School is a private school under Yayasan Takmir-Pendidikan which is registered under the Ministry of Education and Jabatan Hal Ehwal Agama Negeri Sembilan. The School offers integrated academic, religious and tahfiz syllabus to the students. Established in 1989, it began its operation with 27 students and only 2 teachers. At present, there are a total number 1,240 students including preschool, primary and secondary students.).

UNLOCALISED??
SO FEW PROJECTS??

Problems with Other Waqf Solutions

- **No Transparency or Accountability**
 - **Inefficient Project Tracking**
 - **Low Outreach**
 - **Unattractive Layouts and App Design**

PROJECT DEMO

Phase 1

Selangor-based Pilot Program

🎯 Objectives:

- Test core features and user experience
- Validate regulatory compliance with PWS
- Build trust with early adopters

👥 Key Partners:

- Perbadanan Wakaf Selangor (PWS)
- Yayasan Waqaf Malaysia (YWM)

💻 Technology:

- Web2 payment integrations
- Public dashboards for transparency: total collected, progress bars, etc.

🔄 Features:

- Online donation system
- Project validation system (upload PWS approval letters, etc)
- Donor tracking dashboard

Phase 2

Major quality-of-life improvements

🎯 Objectives:

- Introduce localization via Google Maps API
- Innovate on website quality via better visualizations, syariah-compliant gamification features etc.

🌍 Key Innovations:

- Google Maps API: Display Wakaf projects by location, with filters
- Gamification: Streaks, badges, sharing to promote peer influence, in a Halal way
- Power BI Powered Visualizations: for enhanced decision-making and user engagement
- Widening of Web2 payment options (if not enough variation)

Phase 3

Nationwide deployment

🎯 Objectives:

- Scale to all 14 states
- Integrate with State Islamic Religious Councils (SIRC) for localized project approvals
- Leverage modern technologies like Web3 for advanced donors and transparency

👥 Key Stakeholders:

- YWM (federal support)
- JAWHAR
- Each State Religious Council (MAI)*

💻 Tech Enhancements:

- Web3 payment integration (optional layer for advanced users)
- Specific application requirements in accordance of state regulations

How we plan to scale?

Impact

01

**One Platform, All
Waqf Projects**
